Practical of Fundamental Computerized Accounting

is the age of computers. Speed is the watchword of the present world. The job of persons to work for several hours or days to complete can be done by a few minutes and that too with sharp accuracy. **Computer is a programmable device that can store, retrieve and process data. It is a machine that can be programmed to accept data (input), process it into useful information (output) and store it in its memory for later use.** The processing of input to output is directed by the programmes (called software) but performed by the physical parts of computer (called hardware). Accuracy, diligence, versatility and storage capacity are the main features of computer. They are being used in every walk of our life.

and business organisations computers are playing an important role. With the help of computers, every business transaction can be recorded. Computers can maintain the records of an organisation with speed and accuracy. Once the business transactions are entered into the computer on the basis of bills and vouchers by using a proper accounting system, the computer can on its own generate, display and print the various kinds of bills, statements of accounts, daybook summaries, cash and bank summary, petty cash book, trial balance, accounts, reports, funds flow and cash flow statement, purchase and sales registers to debtors for overdue balances, stock ledger, pay roll and what not. This helps the management to take important business decisions and carry out the compliances of business law, government and tax authorities, banks, debtors, creditors etc. Computers can hold the records of business transactions and can reproduce, whenever required and in a format needed. Computers are used in accounting, inventory control, costing and budgetary control, filing of tax returns etc.

use of computers can be stated in brief as under :-

produce, display and print the information in any format whenever needed.

Tally :

most popular and widely used computerised accounting software package. It is an accounting and inventory management system. It is a package with vast applications aimed for a large section of users of various trade and industry, each having different requirements. The tally accounting has been refined from time to time hence number of versions have come from time to time such as Tally 4.5, Tally 5.4, Tally 7.1, Tally 8.1, Tally

Features of Tally :

Tally has achieved great success account of its unique features as under :

(1) **A leading accounting Package :** The first version of Tally was released in 1988 and since then it has undergone continuous development. Today it is recognized as one of the leading accounting packages across the world. Tally's market share in computerised accounting is more than 90%.

(2) **Simple Installation :** Tally is very simple to install. It gets installed instantly without any problem on any operating system.

(3) **Codeless System :** Normally accounting packages use numeric coding system. But Tally is a codeless accounting package. You have freedom to allocate meaningful names in simple English to your data items in the system.

(4) **Complete Business Solution :** Tally provides a comprehensive solution to the accounting and inventory needs of business. By using Tally you can maintain a complete set of accounts and inventory record for any kind of business. You can also extract various kind of information and reports such as Trial Balance, Final Accounts, Cash Flow and Funds Flow statements, Accounting Ratios etc.

(5) **Accounting with and without inventory :** While working on Tally you can decide which part of the system to use; Only accounting or accounting with inventory. If accounting with inventory is used whether it should be integrated or not. In *accounting with inventory* simultaneously while doing financial accounting the stock record is indirectly maintained. When accounting entry for purchase or sale of goods is passed you have to fill the details of items of goods purchased and sold, as a result of which the stock of those items is up-dated automatically.

(6) **Receivables and Payable** : Tally helps you to obtain the various reports on Receivables and Payables in different formats. *Ageing analysis* of Receivables and Payables as per your specification can also be obtained. For example, you can obtain a report on district-wise debtors whose amounts are due or overdue for 8 days and above or 15 days and above or one month and above etc. You may also print reminders to such debtors requesting them to pay such due or overdue bills. The text of reminder may be prepared in your own fashion.

(7) **Multi-location stock control** : Tally has a facility to maintain single location as well as multi-location stocks of the firm. Some business houses having many godowns may use multi-location stock option.

3) Multiple units of measurement : Tally allows you to use multiple units of measure for each item. For example, if you are a wholesale dealer in sarees but occasionally you sell some sarees in retail, you may use *dozen sarees* as unit of measurement of sarees for regular wholesale transactions and *number of sarees* as a unit for retail transactions.

9) Unlimited firms : By using Tally accounting package you can maintain the accounts of any number of firms at the same time. You can even compare or consolidate the financial statements of the firms whose accounts you have maintained. To get consolidated report of a group of companies you may create a Group company of several constituent companies.

(10) Multiple Names : Tally allows you to assign multiple names to stock items or account heads. An item may be identified by Name, Code, Part number, Catalogue number or any other unique identifier.

(11) Multiple Currency accounting : Tally allows the use of multiple currencies while recording business transactions. It does automatic conversion to base currency as per prevailing exchange.

you should plan the arrangement of Groups, Subgroups and Ledger Accounts and establish the time of Group creation and Ledger Creation in order to maintain proper link among helps you to obtain organised reports with control totals. In the above example while you of Expenditure Account, you also get break up into Employee Expenses and Administrative, again split employee expenditure into Salaries and Wages, Bonus and Incentives. of salaries as well as wages are instantly available along with next level breakup into workers and Temporary workers wages. Thus proper grouping of accounts help in preparation as well as Consolidated Accounting Statements and Reports.

Accounts : Ledger account do the function of holding the transaction of a similar nature. All financial entries are made using ledger account heads. All the expenses on managerial be shown in the ledger account named, "Managerial Salaries". Similarly All the expenses relating to office rent will be shown in the ledger account named "Office Rent Account".

Customer Master : Customer master keeps the record of the following information pertaining to customers.

* Postal Address * Sales Tax Registration No * VAT No * Income Tax Permanent Number (PAN) * Credit Period to be allowed * Credit rating * Maximum credit to be

Customer uses master information ?

Communication & Correspondence : While doing correspondence with the customers their dues, amounts due, tax registration numbers, payment terms are automatically picked up from masters.

Purchase Register : While printing the purchase register, the suppliers sales tax numbers will be picked up from suppliers master to fulfil the statutory requirement under Sales Tax Act (or VAT).

Dispatch : Tally does not allow dispatch of goods to a customer if after raising the bill for fresh supplies his balance is going to exceed the maximum permissible credit limit in the master.

While preparing reports of different types such as Area-wise customers, Statements of customers, Debtors List etc. the necessary details are picked up automatically from masters.

Accounting Groups :

Tally automatically provides a set of 28 predefined groups under which ledgers can be classified. These are :

Primary Group - 15

Subgroups - 13

predefined primary groups :

Primary groups appear in Balance Sheet. These are capital in nature.

Primary groups appear in Profit & Loss A/c. These are revenue in nature.

13 Subgroups are classified under the nine primary groups that are capital in nature and appear in the Balance Sheet.

Tally also has two predefined ledgers that are most essential for any kind of business. They are

(1) Cash A/c.

(2) Profit & Loss A/c.

These predefined groups and ledgers for each company already existing in Tally are called **Reserved Groups**. They cannot be deleted or altered except the name. These Reserve Groups are normally sufficient for most of the organisations. However, if the user needs some additional groups to meet the special needs of his organisation he is free to create any number of additional groups. He can create primary group or subgroup. The Reserve Primary Groups and Subgroups are as under :

5) ppt presentation

ppt is the power point presentation on a topic by the presenter the help of a slide show. A ppt presentation consists of a sequence of slides shown after another as discussion program in the course of the presentation. main points of the topic being discussed are shown on the LCD screen and the presenter presents his / her speech reference to those points. Hence, ppt presentation is a kind of formal speech.

Nowadays ppt presentation is used in all walks of life. It is used in schools, college and in workplaces. the most common form of ICT (Information Communication Technology) use. Both a visual and audio medium. discussion points are displayed on screen which the audience can see. the presenter explains those points verbally. In this sense it is different from just a speech on a topic. A presentation requires two sets of language skills.

Time: 30 minutes

Class: Bsc II

Total Marks: 20

Que. Select the correct alternative.

(20)

i. The tolerance of silver stripe on resistor is.....

- a) $\pm 5\%$ ☒ b) $\pm 10\%$ c) $+5\%$ d) $+10\%$

ii. Which of the following statement specifies Ohm's law?

- a) $V=IR$ b) $R=VI$ c) $V=IR$ ☒ d) $I=V/R$

iii. Lissajous figures are used to measure.....

- a) voltage and frequency ☒ b) frequency and phase shift
c) frequency and amplitude distortion d) amplitude and flux

iv. In a npn transistor ... are the majority carriers.

- ☒ a) free electron b) holes c) donor ions d) acceptor ions

v. C.R.O. cannot used to measure

- a) frequency b) phase c) power ☒ d) voltage

vi. An ammeter is connected inwith the circuit element whose current is to measure.

- ☒ a) series b) parallel c) series or parallel d) none of the above

vii. Output of digital multimeter is.....

- a) mechanical b) optical c) electrical ☒ d) analog

viii. Which of the following part is not located inside the cathode ray tube of CRO?

- a) electron gun ☒ b) time base generator
c) vertical deflection plates d) horizontal deflection plates

ix. Digital multimeter is used to measure ...

- a) A.C. and D.C. current b) A.C. and D.C. voltage c) resistance ☒ d) all of these

x. The unit of current is

- a) watt b) coulomb ☒ c) ampere d) volt

A Short Term Course entitled as **Certificate course in 'Statistical software (R- Software)' for B.Sc.-III – Statistics** students was organized by Department of Statistics, Yashwantrao Chavan Mahavidyalaya, Halkarni during 18th Sept. 2022 to 15th, Oct. 2022. The main objectives and outcomes of this course are:

OBJECTIVES

- To learn R- Software and how to use it for effective exploratory data analysis.
- To learn number of data types, data structures, various operators.
- To learn various inbuilt functions.
- To learn diagrammatic representation using R.
- To learn graphical representation using R.
- To learn preparation of frequency tables using R.
- To make awareness of use of R -Software in data science.

OUTCOMES

The students will acquire

- Importance of R- Software.
- Knowledge of identifiers and operators used in - Software.
- This course aims to develop student's ability to use R- Software in statistical analysis.

- Instructions: 1) All questions are compulsory.
2) Figures to the right in the bracket indicate full marks.
3) Question no.3 will be check in online mode only

Total Marks: 50

Q.1) Attempt any TWO of the following.

- a) Discuss logical operators with example.
b) Write a note on increasing and decreasing operators.
c) Define variable. Explain three ways of variable assignment.

[2 x 5]

Q.2) Attempt any TWO of the following.

- a) Discuss the applications of R-programming. Also give and two advantages and disadvantages of R-Programming.
b) Explain c - function, Seq - function, Scan function and Rep - function
c) What is data structure? Explain vector and matrix data structure in R-programming.

[2 x 10]

Q.3) Attempt any TWO of the following.

- a) Following are the Heights (in cms) and Weights (in kg) of 10 boys.

H	144	131	150	147	138	140	150	132	138	138
W	54	52	59	62	60	60	60	58	59	57

Using R

[2 x 10]

- i. Prepare a data frame of Height and Weight.
ii. Create a vector of boys with Height > 145 cms
iii. Create a data frame of the boys with Weight < 59 and Height < 140.
iv. Add variable named BMI = Weight in kg/(Height in meters)².

- b) Represent the following data by bar diagram and pie diagram.

Commodity	Food	Rent	Cloths	Education	Savings	Other
